SKILLS React.js, JavaScript, Python, Redux, PSQL, Git, HTML5, CSS3, OOP, Machine Learning, Agile workflow, TDD, Excel, BI

PROJECTS

Movie Match (Flask, SQLAlchemy, Python, React, Redux, JavaScript)

[Live Site](#) | [GitHub](#)

Tinder meets Netflix with Integrated API's & interactive swiping cards to match with friends.

- Integrated a movie API with multiple fetch options to reduce handling times.
- Integrated tinder-card package allowing seamless swipes to determine likes vs dislikes.
- Implemented a WebSocket using python-clients to message users over a single TCP connection.

InstaLock (Flask, SQLAlchemy, Python, React, Redux, JavaScript)

[Live Site](#) | [GitHub](#)

Customized Instagram clone with posting, commenting, liking, and vaulting features.

- Sustained Agile workflow through consistent communication and hourly standups.
- Designed features and pages with React & Redux and ensured all CRUD features worked through updates and peer review.

SnowJaws (Express, Sequelize, React, Redux, JavaScript)

[Live Site](#) | [GitHub](#)

HipCamp Clone built to search, book, and review ski resorts.

- Explored different paths to structure data storage and fetch-ability.
- Crafted custom authorization using CSRF-Tokens and time adjustments providing better session activity for easy monitoring.

Passport (Express, Sequelize, PUG, JavaScript)

[Live Site](#) | [GitHub](#)

GoodReads Clone built to create, discover, and review traveled-to locations.

- Administered the project, as scrum leader, to ensure git commits were pulled, and merged correctly and kanban boards were filled and moved daily.
- Spearheaded the Frontend design using CSS3 with PUG & HTML5 resulting in a dynamic, fluid user experience.

EXPERIENCE

Curriculum Production Intern

February – June 2019

Human Resources Intern

June – August 2019

Human Resources Clerk

August 2019 – June 2020

StrongMind

- Produced marketing content for student curriculum according to a strict schedule.
- Improved procedure workflow by converting paper files to electronic filing via windows file management.
- Accelerated the payroll auditing process using Business Intelligence reporting paired with an Excel Macro, saving two hours of manual work per week.

Assistant Store Manager

February 2018 – February 2019

Smoothie King

- Generated weekly reports to forecast inventory changes depending on customer trends during the year.
- Achieved corporate acknowledgement for placing top ten nationwide customer satisfaction points in a 6-month period.
- Boosted revenue by efficiently hiring and training new staff to be less wasteful and more productive.

Sales and Services Specialist

April 2017 – January 2018

Floral Image

- Remodeled the marketing strategy in the Phoenix market by introducing tech alternatives to strong arming conversations.
- Converted the Phoenix company vans to be able to handle seven more arrangements, decreasing service times.
- Modified Salesforce data routes on a weekly basis to ensure servicers had the most efficient routes based on current customer locations.
